Software & Accessories to Enhance Your Media Carousel's Performance

Collectorz.com Music Collector or Movie Collector Database Software

Collectorz.com Music Software
134 1455

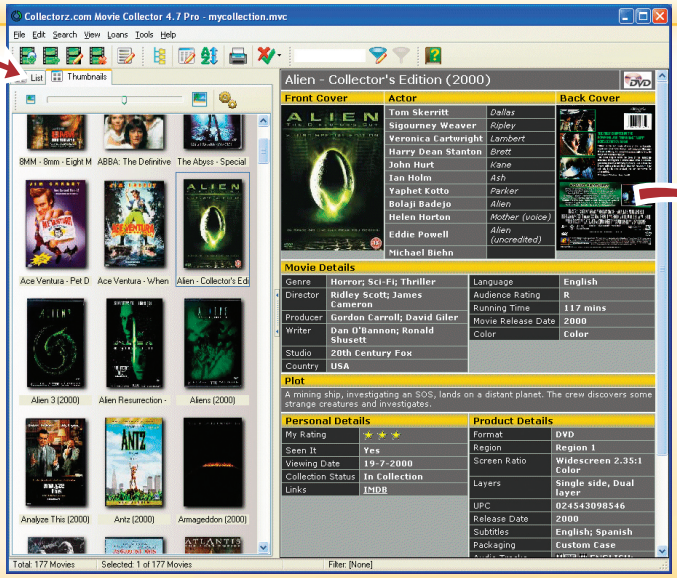

Collectorz.com Movie Software
134 1456

With these PC-compatible programs, simply enter a title or UPC code from one of your audio or video discs and Music Collector or Movie Collector will scour multiple Internet databases to populate your database with detailed information about your discs... including the cover art! Then, with one click, it instructs your Media Carousel to serve up the disc you request.

© 20th Century Fox

Just enter a title or UPC and Movie Collector fills your database with DVD details from the Internet...

Playlists, cast credits, DVD extras & more... Collectorz.com provides hundreds of details on nearly any title!

...using the optional CD/DVD Carousel, your disc pops out with one click!

Flic Laser Barcode Scanner

133 0351—Flic Scanner

The Flic barcode scanner can be used with your Collectorz.com software to quickly catalog your entire DVD/CD library. Instead of typing in lengthy UPC codes, just press the single button on the Flic scanner while holding it next to the UPC barcode. Scan up to 500 UPCs at once, then let your Collectorz.com software do the rest!

- 500-barcode memory
- Activity LED & beep
- 7" scan range

Includes detachable serial cable. Requires 3 AAA batteries (not included), Windows 98/Me/2000/XP and 9-pin RS-232 serial port.
